SATISFACTION

No sale is complete without satisfaction and no satisfaction is complete unless service to the uttermost has been given—and service is not merely the quantity given. It is quality—quality to the limit.

Now, quality can only be measured by the satisfaction of the buyer.

And so we are going to ask you again—to help us serve you to your satisfaction, to help us see that, not only the quantity we sell you is correct for the price you pay—but that the service you receive is fully up to your expectation.

Engaging Spring Modes in Coats for Women and Misses

Focus attention on coats newly arriving each day in our apparel sections. They mean more than merely new garments, for they express new ideas, new colors and new materials of great charm and individuality. Do not be afraid they will be too expensive for your purse, for all our models are always moderate in price.

New Spring Suits

Suits of fine Manish Serge, featuring both strictly tailored and elaborately braided effects; box coat and Russian Blouse models.

Suits of Gabardine, Poirer Twill, Silvertone and Serge in strictly tailored effects, featuring belted and box coat models, come with vestees in contrasting materials.

Suits of Tricotine, Silvertone and Poirer Twill, elaborately embroidered or braided, with vests of silk, Tricotine and other fancy silks. Choose to your heart's content among them at these sums.

Announcing an Attractive Display of

Women's and Misses' Spring Dresses

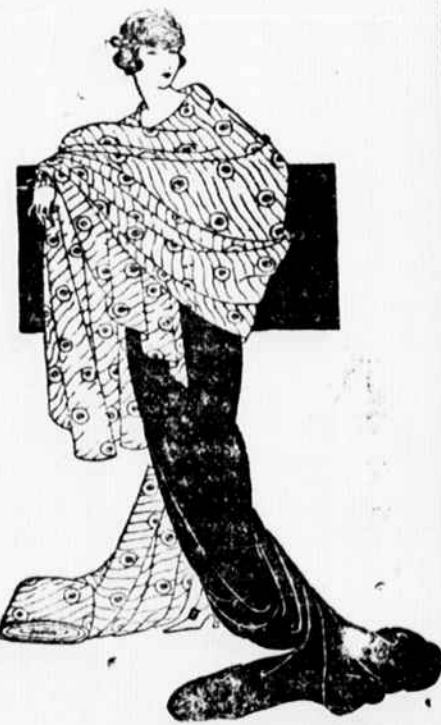

Suitable For Present Wear.

The dominant feature of the new spring mode is the straight line silhouette, with smart innovation in Russian Blouse and new coat effects for afternoon wear, lustrous fabrics, with beadings and elaborate embroideries prevail; for street wear, the strictly tailored frock, with braid and button trimming will be favored. Splendid selections can be made from these.

Distinctive Styles and Exclusive Patterns in New Spring Dress Goods

The new dress goods for early spring suits and dresses are more beautiful than words could describe.

Bright and cheerful colorings, neat and dressy patterns and a general improvement in qualities both in the wearability and in the richness of appearance mark the new dress goods as being something unusually superior for the price.

AN ABUNDANCE OF SPRING WASH FABRICS

There is no shortage of dainty spring wash goods here. We bought liberally and have an ample supply to meet all requirements. We paid only normal prices, so we can offer you excellent values throughout the assortment.

The best patterns and colors are here in every fashionable washable material. Inspection of the display will give you many helpful hints.

New Spring Skirts

Simplicity is evident in every line of these new creations. They are fashioned, like the other garments, along slender, straight lines. This is true of all styles, those for dressy wear as well as those for street and sports wear. Materials are of serge, gabardine, satin, silk, linen, etc. Our showing of them now courts your attention.

POLES AND UKRAINIANS MUST CEASE FIGHTING

Supreme Council Considers the Military Situation in Galicia and the Polish Frontier.

Paris, March 20.—The situation in Galicia was considered by the supreme council at its session yesterday afternoon and it was decided to request the Poles and the Ukrainians to cease hostilities under certain conditions.

The text of the official statement containing this announcement, issued this evening, follows:

"The supreme allied council met this afternoon between 3 and 7. Exchange of views took place in regard to the military situation in Galicia. The council agreed on the terms of an injunction to be addressed to the two armies facing each other in front of Lemberg, requiring them to suspend hostilities at once, on certain conditions.

"The council then dealt with the western frontier of Poland and heard the report of the commission on Polish affairs, which was presented by its chairman, M. Jules Cambon.

"The next meeting will be held on Friday, March 21, at 3 p. m.

POMERENE OPPOSED TO FEDERAL RAIL CONTROL

Democratic Senator Wants No Experimenting With Railroads For Five Years

Chicago, March 20.—Senator Pomerene, of Ohio, a Democratic member of the senate interstate commerce committee, speaking here

last night before the American Railway Engineers' society, opposed extending the period of government control over the railroads beyond the 21 months provided by congress. He asserted the proposed five year extension was urged only for the purpose of experimentation.

Senator Pomerene also urged early restoration of the functions of the interstate commerce commission with increased powers and the fixing by congress of a fair standard return upon the capital invested for the railroads.

"Government control," he asserted, "was intended for war purposes and it ought not to be continued for peace purposes, unless some assured, not speculative or conjectural, advantage can be gained thereby.

"I submit the principles of common honesty suggest this property laws

which does not belong to the government and which does not belong to Mr. Hines (director general) should be given back to the owners within a reasonable time and then if the people of the country have sufficient confidence in government ownership to try it, let us pass the necessary legislation confiscating this property and pay for it as an honest government ought to pay for it. But we cannot afford to take five years to evolve plans and while we are evolving the plans to keep in the government's possession property which was turned over to it as a war measure for the purpose of experimentation."

Senator Pomerene criticized the railroad administration for ignoring the interstate commerce commission in rates and for what he called "reprehensible" orders setting aside laws.

STEPS TAKEN TOWARD REDUCTION OF PRICES

Steel Men Meet With Newly Organized Industrial Board of Department of Commerce.

Washington, March 20.—Initial steps toward bringing about a reduction of prices and stabilization of the basic commodities were taken at a conference of representatives of the steel industry with the department of commerce's recently organized industrial board. The steel men, headed by E. H. Gary, chairman of the American Iron and Steel Institute, met with the board and later held a separate conference. Another meeting with the board will be held.

The attitude of the steel manufacturers toward the board's proposals was not announced. The board, however, in a statement issued after the joint conference, said that while "an actual decision on a lowered scale of prices" had not been reached, "satisfactory progress had been made." Chairman Peek, of the board, was quoted as saying the steel men had shown an entire willingness "to co-operate in making effective any program that will hasten the return to normal conditions."
